The Himalayas & Karakoram Ranges in Northern Pakistan
Lakes

Kashmir lies in the area where the Eurasian and Indian tectonic plates are colliding. Out of this collision, the Himalayas began uplifting 50 million years ago, and continue to rise by about 5 mm/year. This geological activity is the cause of the earthquakes in the area.

Scope of Disaster Mobilized The World To Help

- 73,000 people lost their lives
- 128,000 were injured
- 3.5 million people left homeless.

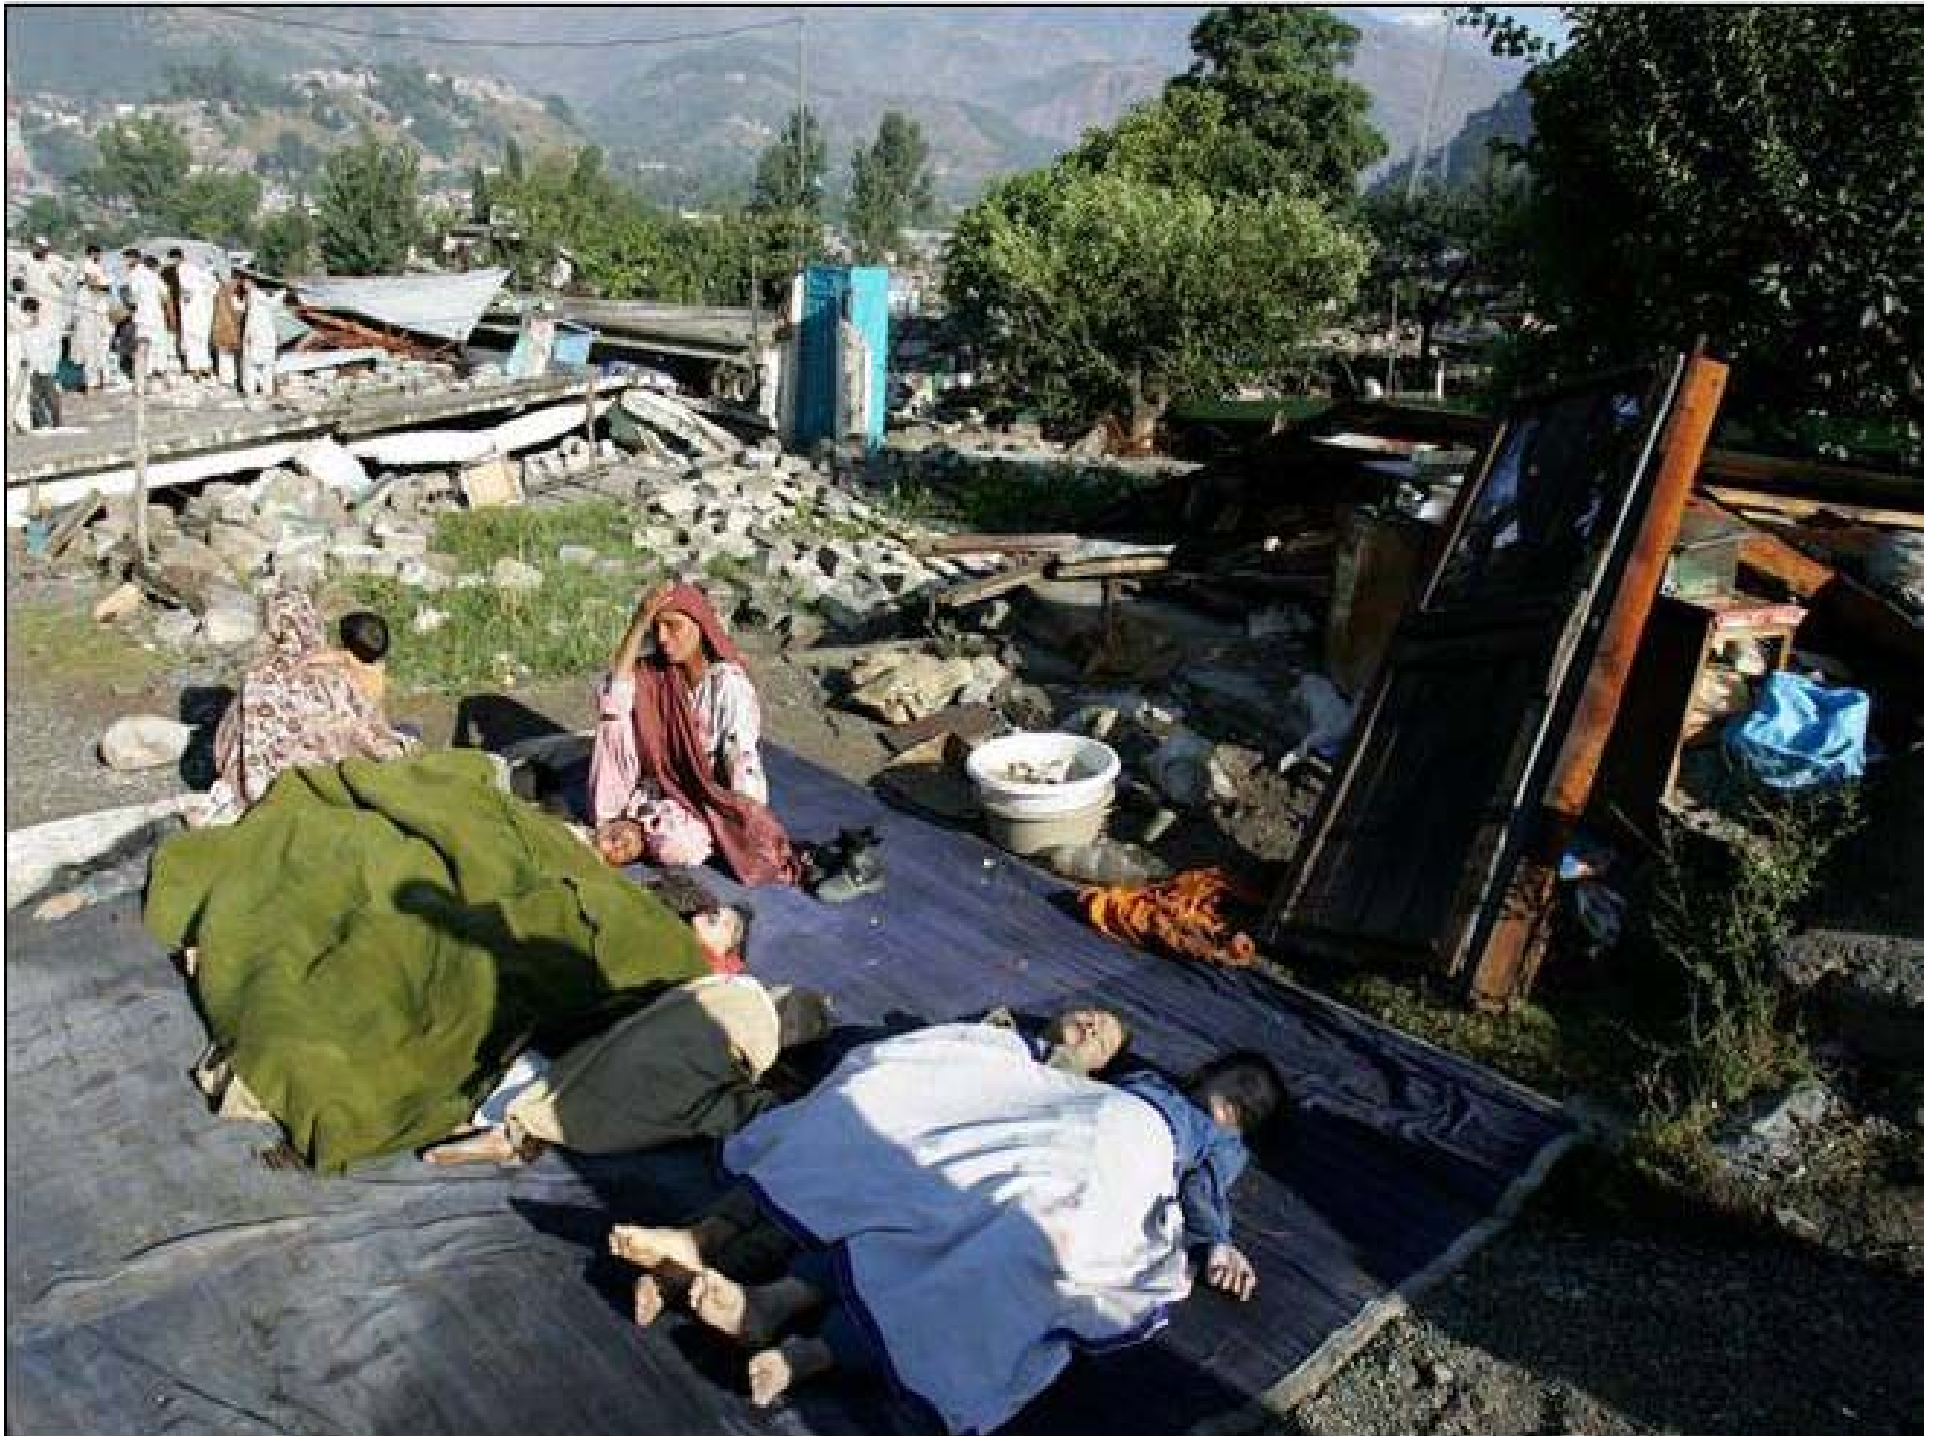

First reported damage: 10 storey building in Islamabad, Pakistan.

No. F.C.C.-04(415)/2007
Islamabad the April 11, 2007.

Subject :- **FORMAL NOC FOR MEDICAL EQUIPMENT FOR ABBOTTABAD.**

Dear Sir,

Please refer the Disaster Management Centre Abbottabad reference No. DMC/ERRA-02, dated 6-4-2007, on the subject cited above, with which a copy of bill of lading and packing list (final shipping manifest) alongwith other supportive documents for the issuance of formal NOC have been submitted to your office.

According to DMC, the shipment is a humanitarian aid from Association of Pakistani Physicians of New England (APPNE), Boston, USA International Medical Equipment Collaborative (IMEC), U.S.A.

I am directed to request you to please extend all possible favour to Disaster Management Centre, for this noble cause.

With best regards.

Yours sincerely,

Sd/x
